PROFESSIONAL SUMMARY

Motivated and enthusiastic IT professional with 6 months of experience as a Technical Trainee at Zoho Corporation. Experienced in Linux system administration, server monitoring, networking, load balancing, and infrastructure support. Possess hands-on exposure to eBPF, Linux system calls, Keepalived, IPVS (LVS), IPTables, and clustering concepts. Passionate about both DevOps and Software Development, with practical experience in Core Java, REST APIs, and web application development. Familiar with Docker and Kubernetes concepts and actively expanding knowledge in modern infrastructure, automation, and cloud technologies. Strong analytical and problem-solving skills with a keen interest in building scalable and reliable systems.

TECHNICAL SKILLS

Programming Languages: C, python

Backend Technologies: Core java, REST APIs

Frontend Technologies: HTML, CSS, JavaScript, React.js

Databases: MySQL

Containerization & Orchestration: Docker, Kubernetes

Version Control: Git, GitHub

Platforms & Tools: Linux, VSCode, Postman

Core Concepts: Operating System, Networking, Data Structure and Algorithms, Object Oriented Programming

PROJECTS

Smart Air Quality Monitoring for Asthma Patients

Jan 2026 – April 2026

Machine Learning Project

Python, SQLite, Linux, Embedded C

- Developed an ML-powered air quality monitoring system that continuously monitors indoor and outdoor air quality conditions for asthma patients.
- The system measures pollution levels in real time and automatically alerts designated users when the Air Quality Index (AQI) exceeds predefined threshold values.
- The solution integrates Raspberry Pi and ESP32 devices to collect environmental data and provides real-time AQI monitoring through a mobile-accessible platform.

Student Management System

May 2026 – July 2026

Web development

Java, MySQL

- Designed and implemented CRUD (Create, Read, Update, Delete) operations for student records.
- Implemented input validation and exception handling for reliable data management.
- Developed a menu-driven interface for easy interaction with the system.

EXPERIENCE

Internship

July 2025 – Aug 2025

Zoho Corporation Pvt. Ltd.

Chengalpattu, Tamil nadu

- Implemented the packet pass using the eBPF hook and direct forward the packet into their machine
- Understand about linux syscall and implemented the basic task
- Perform and assist the file handling process using the syscall and manage their count.

Technical Trainee

sept 2025 – Mar 2026

Zoho Corporation Pvt. Ltd.

Chengalpattu, Tamil nadu

- Monitored and maintained production servers to ensure system availability and reliability.
- Worked with Linux-based environments including Ubuntu and Debian.
- Explored eBPF and Linux system calls for system-level monitoring and performance analysis.

EDUCATION

K.L.N College of Engineering

Bachelor of Technology (B.Tech) – Information Technology

Sivagangai, Tamil nadu

November 2022 – April 2026

Sourashtra Boys Hr Sec School

Bio-Maths

Madurai, Tamil nadu

september 2021 – may 2022

CERTIFICATIONS

- NPTEL – Cloud Computing
- Meta Backend Developer Certificate – Coursera
- Power BI and Tableau Certification – Syssans
- Bug Bounty Certification – Prompt Infotech
- PHP and MySQL – IIT Spoken Tutorial
